

Tape Cont.

3M™ PTFE Coated Glass Cloth Tape 5453

The self-lubricating nature of this tape can help improve the processability of many web materials. High Temperature PTFE glass cloth tape that provides long lasting performance on any heat sealing machines. Release nature of this film tape facilitates clean up of hot plastic extrusion coating by not allowing plastic build-up on rollers. Provides a chemical barrier for harsh design environments. Film tape hugs rollers for easy application and effective service. Total thickness 5.6 mil.

3M™ PTFE Coated Glass Cloth Tape 5451

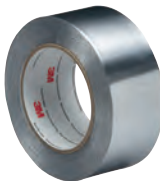

The self-lubricating nature of this tape can help improve the processability of many web materials. High Temperature PTFE glass cloth tape that provides long lasting performance on any heat sealing machines. Release nature of this film tape facilitates clean up of hot plastic extrusion coating by not allowing plastic build-up on rollers. Provides a chemical barrier for harsh design environments. Film tape hugs rollers for easy application and effective service. Total thickness is 3.2 mil.

0601460	2"	36 yd	Brown

3M™ Aluminum Foil Tape 425

General purpose heat reflector and heat dissipater; also used as aircraft paint stripping maskant. Has U.L. Approval Class "L" for low flammability. Can be used indoors or outdoors for long term protection from water, dust, heat or chemicals. Aluminum foil backing combined with a transparent acrylic adhesive. Meets F.A.R 25.853(a), 0447.

Part No.	Width	Length
0601360	1/2"	60 yd
0601361	3/4"	60 yd
0601362	1"	60 yd
0601363	2"	60 yd
0601364	3"	60 yd
0601365	4"	60 yd

Aluminum Foil Aerospace Tape

Engineered to meet requirements for masking of aircraft surfaces during chemical paint stripping process. Aggressive acrylic pressure-sensitive adhesive provides instant, water-resistant adhesion to clean / dry surfaces. Adheres well to itself (where overlapped) yet dispenses from the roll for easy application. Remains flexible and resists cracking and lifting. Conforms to irregular / curved surfaces. Can also be used for electroplating, heat reflection/dissipation and to seam and seal fiberglass duct board, sheet metal ductwork, and flexible duct wrap to enhance appearance and maintain vapor barrier integrity. Recommended minimum application temperature: 35°F. Also can be used for electroplating (of aluminum), HVAC (Heating, Ventilation, and Air Conditioning) and other Aerospace, Industrial, Marine and Appliance industry applications.

Part No.	Width	Length	Type
0610420	2-1/2"	60 yd	Aluminum Foil Tape

Intertape® Sheathing Tape

Designed specifically to work on all house wraps providing the tightest seal against air and moisture. Use to repair rips and tears on a variety of construction materials. Can be used for a wide range of temperatures.

- Contractor grade
- Ideal for construction vapor barrier, seaming and sealing
- BOPP film tape with aggressive acrylic adhesive
- Performance values: 3.4 mil thickness, 64 oz/in adhesion, 32 lbs/in tensile strength, and 190% elongation

Part No.	Width	Length	Color
0601792	48mm	55 M	Red
0601793	48mm	55 M	White

3M™ Squeak Reduction Tape 5430

Helps reduce squeaks and rattles in automobiles by creating a slip-plane effective between two incompatible substrates. Has a high tack adhesive and is 7.0 mil thick. 9 per case.

Part No.	Width	Length	Color
0601458	1"	36 yd	Transparent

Intertape® RG316 Premium Grade Filament Tape

BOPP backed; thin profile for medium to Heavy-duty use; ideal for moderate industrial packaging.

Part No.	Width	Length	Color
0530164	18mm	55 M	Transparent
0530165	24mm	55 M	Transparent
0530166	48mm	55 M	Transparent

Intertape® RG315 Medium Grade Filament Tape

BOPP backed filament tape with medium tensile strength; Ideal for palletizing, unitizing and strapping heavier products; Performance values: 4.2 mil thickness, 49 oz/in adhesion, 175 lbs/in tensile strength and 4% elongation.

Part No.	Width	Length	Color
0530167	18mm	55 M	Transparent
0530168	24mm	55 M	Transparent
0530169	48mm	55 M	Transparent

Intertape® RG400 Utility Grade Filament Tape

Highest level of adhesion for this level of tensile strength currently produced in the market. An excellent product for bundling, strapping, palletizing, load stabilization and temporary encasement. Clear construction allows easy read through of graphics.

Part No.	Width	Length	Color
0530170	12mm	55 M	Transparent
0530171	18mm	55 M	Transparent
0530172	24mm	55 M	Transparent

Tartan™ Filament Tape 8934

Features a clear film backing, glass filament reinforcing, and pressure-sensitive hot melt rubber resin adhesive. Suitable for light to medium-duty strapping, bundling and reinforcing. Priced competitively yet performs to strict standards. 4 mils thick.
