DC Powered Scissor Carts

Tables provide unparalleled ergonomic support in lifting, palletizing, loading, and unloading applications. Carts are raised or lowered with a 12V DC powered motor. Units roll smoothly with (2) rigid and (2) swivel 4" x 2" phenolic casters with brakes. Push handle is removable. Internal DC powered electric motor and 12V battery are included on DC units. Electric motor is rated at 1600 watts, 133 amps and 2.14HP. Built-in 10AMP battery charger is included (operated on 115V AC power). Push buttons to raise and lower lift are located on power unit. Detachable hand control on coil cord is standard. Key-operated ON/OFF control for better security is built into the power unit. Platform is equipped with perimeter pinch-point guard for OSHA compliance. On-board charger standard.

Auto-Hite Scissor Carts

The Auto-Hite Scissor Cart automatically raises or lowers as materials are removed or added to the platform, keeping material at an ergonomic work height. Increase efficiency while reducing potentially harmful bending and twisting motions. Carts utilize tension springs which can be adjusted to fit each particular application. All steel construction with removable handle. Polyurethane casters are 5" x 2", (2) rigid and (2) swivel with brake. Overall height is 38".

Battery Powered Lift Counter-Balanced Stackers

Powered Counter Balance Stackers allow you handle skids/ loads without cumbersome outriggers. It is a very cost efficient material handling solution to a common problem. It allows you to pull right up to a skid, shelf, or work table without outriggers obstructing your ability to get where you have to go to do the job. All Wesco Counter-Balanced Stackers are battery operated to raise and lower the forks. Order a Counter Balance model with Power Drive and you will have a true ergonomic lift that reduces the physical demands of transporting loads. Power drive units must be factory installed and can not be retrofitted.

Counter Balance Stackers do not include the Counter Balance weight required for the stated lifting capacity. Weights must be ordered separately. Manufactured in the USA. (Does not include counter weights)

- Instant stop controls - when you release the lift or lower button on the pendant the forks stop - no drifting.
- Remote control allows for clear side view when loading/unloading racks
- Floor lock and safety screen to help protect operator
- Meets ASME B56.10 specifications
- Unit can be used in stationary position while recharging, automatically stops charging once the 12V DC battery is fully charged.
- Illuminated voltmeter for easy visibility
