

Cable Hand Rail Parts

RailEasy™ Cable Hand Rail Parts

Part No.	Style	Contents
0531072	Tensioner	(1) RailEasy™ Tensioner, (3) #8 x 1-1/2" stainless steel screws
0531073	Cable Swivel End	(1) RailEasy™ Swivel End, (3) #8 x 1-1/2" stainless steel screws
0531074	Cable Sleeve	10 RailEasy™ Cable Sleeves
0531075	Drill Template	RailEasy™ Drilling Template
0531078	Tensioner	(1) RailEasy™ Stud Assembly

RailEasy™ Cables

- Type 316 stainless steel for durability and corrosion resistance.

Part No.	Length
0531076	100 ft
0531077	500 ft

Gates

Expandable Mobile Safety Gate

- Quickly and easily block access to dangerous or restricted areas
- Aluminum slats, steel uprights
- 55-1/2" H, 30-1/2" W collapsed, 143" W expanded
- 3" swivel casters
- Safety yellow in color

Part No.	Width	Height
0506668	30-1/2" - 143"	55-1/2"

Barrier Gates

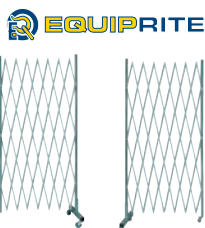

Barrier Gates allow quick and easy portable access control. They're galvanized steel and powder coated in safety colors for high visibility and are designed to hold up to more stress without rusting. Perfect for temporary access control for maintenance, cleaning and repair work and can be used in entryways and hallways. Ideal for warehouses or factories and for restricting aisle access in retail environments, plus, each gate can connect to another to form perimeters or corners of any length.

Part No.	Type	Width	Height
0529295	Security Starter Gate	14 ft	42"
0529296	Security Add-On Gate	6 ft	42"

Expandable and Portable Steel Folding Gates

- Available in single (72" expanded) or double (144" expanded) styles
- 3/4" x 3/8" x 15 gauge U channels riveted back to back construction
- Zinc plating finish

Part No.	Width	Height
0506671	6 ft - 12 ft	72"
0506672	3 ft - 6 ft	72"

SUPERIOR Portable Gates - Security & Traffic Control

Portable Gates easily attach between two walls without the use of permanent anchors. The unique patented design provides for constant height when expanded and collapsed. Five sizes are available to accommodate 3'-6" wide to 18'-0" wide conditions. Connect two or more gates together for wider applications.

- Quick and easy installation. Install between two walls instantly without anchors to walls or floor
- Simplified, patented pressure lock system
- Floor anchors are not required but are available for special installations
- Compact, fold-up size and Heavy-duty swivel casters make moving and storage easy
- Powder coat finish
- Padlock hasp is standard (locks not included)
- Cylinder locks are available for additional security
- Two or more gates can be joined together for large expanse

Here's how the exclusive Superior® Pressure Lock System works:

- 1 - Raise unit retainer channel to vertical position and secure.
- 2 - Extend gate until rubber bumpers touch both walls.
- 3 - Lower the male lock channel (with pin) until it rests on carriage channels within guides and locking bracket.
- 4 - Lower female lock channel (with adjustment holes) until it rests within the male lock channel with pin (pin need not engage a hole in female lock channel).
- 5 - Raise both channels until pin engages the hole immediately to the right. Applying moderate pressure, push both channels down until they rest within guides and locking bracket. Lock in position.

Part No.	For Openings	Height
0597431	3'-6" to 6'-0"	78-1/2"
0597432	6'-0" to 9'-0"	78-1/2"
0597433	7'-0" to 12'-0"	78-1/2"
0597434	11'-0" to 15'-0"	78-1/2"
0597435	13'-0" to 18'-0"	78-1/2"

SUPERIOR Steel Floor Anchor Assembly & Cylinder Lock

Part No.	Description
0597436	Optional Floor Anchor Assembly
0597438	Optional Cylinder Lock

Fastenal's FAST 5000 allows you to immediately reduce product consumption, on-hand inventory, and administration costs.
