

Post Hole Diggers

Post Hole Diggers

- 1 Year Warranty
- Tempered steel blades
- Best for digging deep holes for posts and footings

Part No.	Blade Width	Blade Length	Handle Length	Handle Material	Brand Name
0250833	5-1/2"	8-1/4"	48"	Ash	Rock River
5098-78-290	5-1/2"	8"	48"	Hardwood	Ames
0250834	5-1/2"	8-1/4"	48"	Fiberglass	Rock River

Augers

Post Hole Augers

Auger bits sold separately.

Part No.	Mfg. No.	Horsepower	Engine Displacement
0245129	TIA-350PFS	1.6	32 cc
0245130	TEA-500	2.5	50 cc

Wheelbarrows

Wheelbarrows

Part No.	Tray Size	Tray Material	Wheel Type	Brand Name	Weight
0281731	6 Cubic Feet	Steel	2-Ply Radial	Ames	59 lb
0297074	8 Cubic Feet	Polypropylene	Rubber	Rock River	40 lb
5098-77-311	10 Cubic Feet	Polyethylene	2-Ply Radial	Ames	50 lb
0256646	6 Cubic Feet	Steel	Pneumatic	Rock River	46 lb
0256647	6 Cubic Feet	Steel	Flat Free	Rock River	40.26 lb

Pruners

Bypass Pruner

Rugged and reliable, this trusted design has been a staple for gardeners year after year. Full steel handles with comfort grips ensure confidence with every cut; bypass cutting action makes crisp clean cuts.

- All steel construction
- Sharp, precision-ground blade edge
- Fully hardened blade holds sharp edge longer
- Corrosion resistant, non-stick blade coating reduces friction to make cutting easier
- Self-cleaning sap groove keeps blades from sticking
- Right or left-handed use
- Bypass blade for clean cuts of green, living growth

Part No.	Mfg. No.	Cutting Capacity	Overall Length
0200860	91095935	5/8"	7.69"
0200861	91105935	5/8"	8.19"

Hedge Trimmers

POWERGEAR FIBERCOMP Handle-Hedge Shears

The only hedge shear able to cut to the tip of the blade

- PowerGear® mechanism increases leverage to make cutting 3X easier than single pivot shears
- The only hedge shears to be awarded the Arthritis Foundation® Ease-of-Use Commendation
- Sharp, precision ground blade edge
- Fully hardened blade holds sharp edge longer
- Corrosion resistant, non-stick blade coating reduces friction to make cutting
- Cuts entire length of the blade
- FiberComp® handles-reinforced fiberglass composite materials provide strength and durability

Part No.	Mfg. No.	Cutting Capacity	Overall Length
0206534	91896935	9"	22"

Loppers

POWER-LEVER Bypass Lopper

The Power-Lever® design doubles leverage versus single pivot loppers. A shock-absorbing bumper reduces the stress of each cut. Bypass design for cutting living growth. 2 inch maximum cut.

- Power-Lever® mechanism increases leverage to make cutting 2X easier than single pivot loppers
- Sharp, precision ground blade edge
- Fully hardened blade holds sharp edge longer
- Corrosion resistant, non-stick blade coating reduces friction to make cutting easier
- Durable and lightweight fiberglass handles
- Bypass blade-for clean cuts of green, living growth

Part No.	Mfg. No.	Cutting Capacity	Overall Length
0200863	91586935	2"	30"
