

**Water Filters**

**Replacement Cartridges**

Aqua-Pure® Media Block Sediment Cartridges

Part No.	Mfg. No.	Filter Micron Size	Diameter	Style	Height
0453957	5620404	5	2-5/8"	Progressive Porosity Sediment	9-3/4"
0453959	5620601	50	2-5/8"	Progressive Porosity Sediment	9-3/4"

**Aqua-Pure® AP117 Water Filter 2 Pack**

Carbon Cartridges

- Size: 3" x 9.75"

Part No.	Mfg. No.	Filter Micron Size	Size	Application	Diameter
0453960	AP117	5	Standard	For taste, odor, dirt, rust and sediment reduction	3"

**Inline Filter - Triple Action**

- Triple action filtration system includes reduction of sediment, taste, odor and chlorine as well as introducing a scale inhibitor into the water for protection of all water using appliances
- Includes 1/4" connections for easy installations and cartridge change-outs
- Excellent for ice makers, coffee makers and low flow applications

Part No.	Mfg. No.	Flow Capacity
0453975	5551312	0.5 gpm

**Drinking Water System Replacement Cartridge**

Triple Action Filter Cartridge for AP510. Fits part # 0453979.

- Triple action filtration system includes reduction of sediment, taste, odor and chlorine, as well as introducing a scale inhibitor into the water for protection of all water-using appliances
- Patented Sanitary Quick Change system allows for protection of all water-using appliances
- Patented Sanitary Quick Change system allows for quick and easy filter change-outs
- Built-in shut off valve - shuts off water, relieves the pressure and releases the filter for cartridge effortless change-outs
- Maximum Temperature: 125°F (51.7°C)
- Maximum Pressure: 125 psi (862 kPa)

Part No.	Mfg. No.	Flow Capacity
0453980	AP51701	2 gpm

**Undersink/Low Flow Applications AP200**

Dual Action Filter Cartridge for AP200. Fits part # 0453981. 2 per pack.

- For cold water applications
- Dual action filtration system includes reduction of sediment, taste, odor and chlorine to improve the taste of the water
- Compact system design allows for placement in tight areas
- Max. Temp.: 125°F (51.7°C)
- Max. Pressure: 125 psi (862 kPa)

Part No.	Mfg. No.	Flow Capacity
0453982	4629002	2 gpm

**Large Diameter Sediment Cartridges**

Part No.	Mfg. No.	Description
0453971	5618902	5 Micron Large Diameter Graded Density Sediment Cartridge

**Water Filter Systems**

**Aqua-Pure® Drinking Water System**

- Reduces sediment, chlorine taste, odor and scale concerns
- Compact Triple action filter
- Filter effective for up to 2,000 gallons
- 3/8" pipe connection
- Uses AP517 replacement cartridges
- 2 gallons per minute flow rate

Part No.	Mfg. No.
0453979	5592202

**Aqua-Pure® Drinking Water System**

- Reduces sediment, chlorine, taste and odor concerns
- Compact dual action filter
- Filter effective for up to 2,000 gallons
- 3/8" pipe connection
- Uses AP217 replacement cartridges

Part No.	Mfg. No.	Flow Capacity
0453981	5528901	2 gpm

**Cements**

**PVC and CPVC Cement**

For PVC Types I and II potable water, DWV and SW pipe and fittings up to 6" diameter Schedule 40 and 80. NSF and UPC listed. Conforms to ASTM D2564

Part No.	Mfg. No.	Container Size	Color	Style	Canadian Product
0471755	60015	16 oz	Clear	Medium Set/Medium Body	0458605
0471756	60020	32 oz	Clear	Medium Set/Medium Body	
0471757	60115	16 oz	Clear	Fast Set/Medium Body	
0471758	60120	32 oz	Clear	Fast Set/Medium Body	
0471759	60145	16 oz	Clear	Fast Set/Regular Body	
0471760	60148	32 oz	Clear	Fast Set/Regular Body	
0471761	60313	8 oz	Orange	Fast Set/Medium Body	
0471762	60320	32 oz	Orange	Fast Set/Medium Body	

\*The following can be used for pipe and fittings up to 8" in diameter: 0471757, 0471758, 0471761, 0471762

\*\*The following should be used with Schedule 40 fittings only: 0471759, 0471760

**Primers**

**PVC Clear Primer (Red Label)**

Recommended method to soften and prepare surface of PVC pipe and fittings before applying solvent cement. NSF and UPC approved. Use clean dauber.

Part No.	Mfg. No.	Container Size	Color	Canadian Product
0471765	60458	8 oz	Clear	0458613
0471766	60465	32 oz	Clear	

**PVC and CPVC Purple Primer (Purple Label)**

Recommended method to soften and prepare surface of PVC and CPVC pipe and fittings before applying solvent cements. NSF and UPC approved. Use clean dauber. Purple color for easy identification.

Part No.	Mfg. No.	Container Size	Color	Canadian Product
0471763	60415	8 oz	Purple	0458618
0471764	60420	32 oz	Purple	0458619

**Teflon™ Tape**

**Low Density Teflon™ Tape**

Conforms to A-A-58092

Part No.	Mfg. No.	Width	Length
63164	26135	1/2"	520"
63165	26150	3/4"	520"
