Treatments

Evaporative Cooler Mineral Water Treatment

- Water treatment for areas with hard water and calcium buildup
- Includes one carton of six bottles

Part No.	Chemical Base	Type
0209221	Sodium Hexametaphosphate	Mineral Treatment

Replacement Switches

PORT-A-COOL Automatic Shut-Off Float Switch

Forgot to turn off the pump, no problem with the Float Switch Kit. Eliminates pump failures due to not having water in the reservoir as the Float Switch will turn off the pump and not let it burn up.

- Turns off pump when water levels are low. Prevents pump damage.

Part No.	Voltage	Type	Model Compatibility
0481486	110 / 220	Replacement Switch	All 24, 36 and 48 Port-A-Cool units

Pumps

24", 36" 48" PAC Unit Replacement Pump

- Replacement Submersible Pump

Part No.	Horsepower	Model Compatibility
