Cable Cutters

Gator Battery Powered Cable Cutter

- Application: Cutting copper and aluminum power cables
- Retraction Stop allows the operator to stop the ram retraction at any point simply by tapping the trigger, and then starting the next cutting cycle from that point saving time and energy
- Tools automatically retract when the cutting cycle is complete
- Cutting head rotates 350° for access to tight spaces
- LED light provides the operator with the battery charge and tool maintenance status
- Forward handle position improves tool balance
- One trigger controls all tool functions
- State of the art 18V lithium ion (Li-ion) battery provides 70% more cycles per charge and faster cycle times
- Smart chargers control the charging current, charging voltage and battery temperature to maximize battery life
- Overmolded tacky grip areas make gripping the tool easier and more comfortable
- LED work light illuminates dark work areas
- Uses bio-degradable oil
