

Anti-Slip Paints

Concrete Saver® 200 Anti-Skid Floor Coating Anti-Slip Additive **RUST-OLEUM** INDUSTRIAL BRANDS

Specially refined aggregate provides increased skid resistance.

- Coverage Area: 25-35 Square Feet/Gal
- Drying Time: 48 hr

Part No.	Mfg. No.	Container Size	Color
0160524	200504	1 qt	White

Floor Paints

Concrete Saver® 6500 System 100% Solids Floor Epoxy **RUST-OLEUM** INDUSTRIAL BRANDS

- Two-component system: Must use Base and Activator! Sold separately.
- High build, low odor 100% solids epoxy floor epoxy provides-Heavy-duty industrial floors
- Formulated for maximum protection against chemicals, abrasion and impact in heavy traffic environments
- Low odor for use in occupied, confined or low ventilation areas
- Easy to maintain high gloss finish with fast return to service
- Return to light traffic in 10 hours
- VOC: <100 g/l
- SUFACES: Concrete
- APPLICATION METHOD: Squeegee, Roller

Type - Floor Paint								
Part No.	Mfg. No.	Container Size	Color	Finish	Tack-Free Time	Recoat Time	Drying Time	Coverage Area
0160732	S6568413	1 gal	Red	High Gloss	6 - 8 hr	10 - 24 hr	48 - 72 hr	100 Square Feet
0160733	S6571413	1 gal	Tan	High Gloss	6 - 8 hr	10 - 24 hr	48 - 72 hr	100 Square Feet
0160734	S6568413	1 gal	Silver Gray	High Gloss	6 - 8 hr	10 - 24 hr	48 - 72 hr	100 Square Feet

Paint Additives & Activators

Concrete Saver® 6500 System 100% Solids Floor Epoxy **RUST-OLEUM** INDUSTRIAL BRANDS

- Two-component system: Must use Base and Activator! Sold separately.
- High build, low odor 100% solids epoxy floor epoxy provides-Heavy-duty industrial floors
- Formulated for maximum protection against chemicals, abrasion and impact in heavy traffic environments
- Low odor for use in occupied, confined or low ventilation areas
- Easy to maintain high gloss finish with fast return to service
- Return to light traffic in 10 hours

VOC: <100 g/l

SUFACES: Concrete

APPLICATION METHOD: Squeegee, Roller

EXPOSURE CONDITIONS: Mild to severe environments

USES: Floor coating for all industries (USDA acceptable) - warehouses, show rooms, clean rooms, mechanical, food processing, storage areas, labs, aircraft hangers.

PRACTICAL COVERAGE: 100 sq. ft.

NOTE: S6511 System Epoxy Floor Primer recommended with application of 6500 System. Two-component primer system: Must use base and activator. Order Epoxy Floor Primer base and activator separately.

Type - Epoxy Activator								
Part No.	Mfg. No.	Container Size	Color	Finish	Tack-Free Time	Recoat Time	Drying Time	Coverage Area
0160728	S6501410	1 gal	Clear	High Gloss	6 - 8 hr	10 - 24 hr	48 - 72 hr	100 Square Feet

High Performance 9400 System High Gloss Polyester Urethane Activators

- Two Component System: Must use Base and Activator. Order Base and Activator Separately.
- Use the <600 g/l Activator for auto refinishing applications.
- Use the <420 g/l Activator for industrial maintenance applications.

Part No.	Mfg. No.	Container Size	Color	Finish	Tack-Free Time	Recoat Time	Drying Time	Coverage Area	Application
0160723	HS9303604	1 gal	Clear	High Gloss	2 - 4 hr	After 1 hr	4 - 6 hr	370 - 790 Square Feet	Metal, Galvanized Metal

High Performance 5300 System Water-based Epoxy Coating Activator

- For use with 5300 System Water-based Epoxy Coating.
- Two-component system: Must use Base and Activator. Order Base and Activator separately.

Part No.	Mfg. No.	Container Size	Color	Finish	Recoat Time	Application
0160589	5303502	1 qt	Clear	Gloss	1 - 2 hr	Steel

High Performance 9800 System DTM Urethane Mastic Coating Activator

- For use with 9800 System DTM Urethane Mastic Coating Base.
- Two-component system: Must use Base and Activator. Order Base and Activator Separately.

Part No.	Mfg. No.	Container Size	Color	Finish	Tack-Free Time	Recoat Time	Drying Time	Coverage Area	Application
0160681	9801501	1 qt	Clear	Gloss	6 - 9 hr	8 - 72 hr	9 - 12 hr	180 - 280 Square Feet	Concrete, Metal, Galvanized Metal
