

**Oil**

**Sprayon® LU™ Food Grade Synthetic Oil**

- Does not Emulsify with Water
- Extreme Pressure Performance
- Resists Corrosion & Chemical Attack

| Part No. | Container Size | Application                                                                                                                                                                              |
|----------|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 0616295  | 20 oz          | Sliding Surfaces, Slow-High Speed Bearings, Pump Bearings, Sterilizer Chains, Bushings, Slides & Ways, Can Seamers, Pool Equipment, Valves, Gaskets & Rings, Conveyors, Universal Joints |

**Food Grade Machinery Oil**

- Meets FDA requirements
- Resists corrosion and chemical attack
- High purity white mineral oil for general purpose applications
- Wide delivery spray covers a wide surface area in a short amount of time

| Part No. | Container Size | Application                                                                                              |
|----------|----------------|----------------------------------------------------------------------------------------------------------|
| 0616287  | 20 oz          | Bottle and carton, filling machinery, valves, pistons, rollers, stainless steel pumps, chain drive belts |

**Food Grade Synthetic Penetrating Oil**

- Quick Penetration
- Non-flammable
- Use to loosen rust, scale & corrosion
- Spray Anyway™ Valve

| Part No. | Container Size | Application                                                                                                                                                                                                         |
|----------|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 0616292  | 20 oz          | Rusted or Frozen Lugs, Bolts, Repair Work, Food Plant Equipment, Tight-Fitting Parts, General Overhaul, Scale, Fans, Carts, Gallies, Bottlers, Chutes, Conveyors, Racks, Fillers, Mixers, Rails, Cooking Appliances |

**Oil Cans & Oilers**

**Ridgid Hand-Operated Portable Oiler**

- Hand-operated, easy pumping 2-finger trigger, completely portable
- Oil is double-filtered and recirculated through reservoir
- Runoff caught by chip pan with 54" hose

| Part No.   | Capacity |
|------------|----------|
| 5228-41650 | 1 gal    |

**Protective Coatings**

**Sprayon® Long Term Outdoor Protectant & Lube**

- NSF reg. no. 127500; H2 rated
- A waxy, heavy-duty, rust inhibitor
- Formulated to stand up to the most severe weather conditions
- Offers 24-month durability
- MIL-C-16173D Grade 2, MIL-C-23411A
- Provides more than 1,200 hours of protection against salt spray
- Provides a barrier that guards against humidity
- Works on all metals, rubber, most plastic and painted surfaces
- Contains no silicone or chlorinated solvents

| Part No. | Mfg. No. | Net Fill |
|----------|----------|----------|
| 0682492  | S00777   | 11 oz    |

**Silicone Lubricants**

**TALON™ Food Grade Silicone**

- Non-corrosive to metals and repels water
- Meets FDA regulations
- Use on food racks, food processing equipment, conveyors, ovens, heat sealers

| Part No. | Container Size | Net Fill |
|----------|----------------|----------|
| 0616830  | 16 oz          | 10 oz    |

**Sprayon® Moly Chain & Pin Bushing Lube**

- NSF reg. no. 115087; H2 rated
- Foaming action penetrates close tolerances of chain drive bushings and pins
- Specially formulated for all chain drive equipment
- Reduces wear, increase chain life up to three times when applied regularly
- Moly additive assures lubrication under extreme pressure
- Withstands extreme temperatures from -20° to +300°F

Uses: Chain drives and pins, forklifts, trucks, tractors, and machinery

| Part No. | Mfg. No. | Net Fill |
|----------|----------|----------|
| 0682487  | S00202   | 11 oz    |

**Sprayon® 711® The Protector™ Lubricant**

- NSF reg. no. 115051; H2 rated
- Completely protects metal surfaces from corrosive elements
- Can eliminate moisture-induced short circuits in electrical and electronic applications
- Formulated to ensure maximum moisture displacement
- Rust-preventative film inhibits corrosion and penetrates surface irregularities to release frozen or corroded parts
- Ultra-thin and greaseless

Uses: Bearings, production lines, machinery, ignition systems, electrical wiring, connectors, linkages, weapons, nuts and bolts, production equipment of all kinds, and all metal surfaces.

| Part No. | Mfg. No. | Net Fill |
|----------|----------|----------|
| 0682489  | S00711   | 11 oz    |

**CHEMICALS & PAINTS**
