

Thread Sealants & Compounds

Vibra-Tite® 420 Thread Sealant, Slow Cure

White, slow cure thread sealant with controlled locking strength. High temperature and high performance on metal fittings. Seals to pipe burst pressure. Prevents corrosion and galling of threads. Service removability.

Part No.	Mfg. No.	Container Size	Color
0120901	42050	50 mL	White

Loctite® 554™ Thread Sealant Refrigerant

Excellent solvent resistance on threaded fittings and pipes up to 3" diameter. Recommended for refrigeration systems and service with aggressive chemicals.

Part No.	Mfg. No.	Container Size	Color	Physical Form
0150432	25882	10 mL	Red	Liquid
0150978	55441	250 mL	Red	Liquid

Loctite® 567™ PST® High Temperature Thread Sealant

Withstands temperatures to 400°F with excellent solvent resistance. Locks and seals tapered pipe threads and fittings, including high pressure applications. Disassembles with hand tools. Ideal for stainless steel, aluminum, galvanized metals and other inert metals.

0150613

Part No.	Mfg. No.	Container Size	Color	Physical Form
0150213	56707	6 mL	White	Paste
0150214	56747	50 mL	White	Paste
0150215	56765	250 mL	White	Paste
0150613	33241	350 mL	White	Paste

Loctite® 580™ PST® Low Sulfur Thread Sealant

For threaded fittings in fossil fuel, solar and hydro plant piping systems. Seal and secure metal pipes and fittings, filling the space between threaded metal parts, and hardening to prevent leakage. Designed for low and high pressure applications.

Part No.	Mfg. No.	Container Size	Color	Physical Form
0150257	58031	50 mL	White	Paste

Loctite® 592™ PST® Slow Cure Thread Sealant

Locks and seals threaded fittings. Parts may be repositioned up to 24 hours after application.

- Prevents leaks
- Single component-quick and easy to apply
- Can be used on any size pipe fitting
- Prevents corrosion and galling in threads

Part No.	Mfg. No.	Container Size	Color	Physical Form
0150992	59231	50 mL	White	Paste
0150993	59241	250 mL	White	Paste

Loctite® QuickStix™ 561™ PST® Pipe Sealant

This new, patented, semisolid stick formula offers great flexibility for tough applications, especially if overhead, under or around machinery, and on components that cannot be moved. The semisolid formula also means the QuickStix™ won't spill or leak on toolboxes or shop floors. Loctite® QuickStix™ 561™ PST® is convenient and "pocket-friendly." Each product has color coded caps for easy application or product identification.

- Has immediate low pressure sealing, eases disassembly and will not contaminate or clog lines

Part No.	Mfg. No.	Container Size	Color	Physical Form
0159642	37127	19 g	White	Paste

Loctite® 569™ Hydraulic Fittings Thread Sealant

Loctite® 569™ is a high strength, low viscosity sealant designed for the locking and sealing of plastic and metal pipes and fittings.

Part No.	Mfg. No.	Container Size	Color	Physical Form
0150984	56931	50 mL	Brown	Liquid
0150985	56941	250 mL	Brown	Liquid

Loctite® 577™ Coarse Threads Thread Sealant

Loctite® 577™ is a medium strength, general purpose sealant for use on coarse, threaded components.

Part No.	Mfg. No.	Container Size	Color	Physical Form
0150385	21456	50 mL	Yellow	Paste

Loctite® 542™ Fine Threads Thread Sealant

Loctite® 542™ is a liquid sealant recommended for sealing fine threads of hydraulic and pneumatic connectors.

Part No.	Mfg. No.	Container Size	Container Type	Color	Physical Form
0150383	21453	50 mL	Bottle	Brown	Liquid
