### Anchrolube G-771

Anchrolube G-771 is top performing multi-purpose lubricant offering a new level of tool-life along with the cleanliness of a water/soap based compound. Anchrolube is a semi-paste and performs well on all metals, especially stainless steel, high-carbon, high-chrome, case iron monel, and other exotic metals that shorten tool life. It can also be used on non-ferrous metals such as brass and aluminum. Anchrolube is a totally environmentally-safe lubricant that contains no petroleum, chlorine, nitrates, chromates or sulfur. As a water-based all natural product, it maintains a clean work area with no oily surfaces. Anchrolube is USDA P-1 approved for shops operating under the federal meat and poultry products inspection program.
